

Ever Full of Sap Part 2

Effective sap used on our vacation! (Holland America cruise line)

This message elaborates on the spiritual concept of "sap" as used in Psalm 92:12-15, drawing deep connections between this metaphor and the Word of God. By comparing "sap" to the potential and kinetic energy of the Word. Plus, highlighting how believers must move from simply hearing the Word (potential energy) to applying it in faith (kinetic energy).

The personal account of exercising faith **during the cruise** further exemplifies this principle, demonstrating the **shift from** storing God's Word (**sap/potential energy**) **to actively** applying it (**kinetic energy**) through faith and prayer, bringing about real-world change.

This message emphasizes the need for righteousness, a theme that resonates strongly with the idea of being "ever full of sap" — or continually nourished by God's Word and presence. By drawing in scriptures from Romans, Isaiah, John, and others, offers a comprehensive view of how this spiritual dynamic unfolds.

Also, the closing benediction with 2 Thessalonians 3:16 provides a wonderful, peaceful conclusion to the teaching. It ties together the importance of God's peace in guiding us, reinforcing the principle that true peace and effectiveness come from being rooted in His Word and in action.

If anyone would like assistance with any particular aspect of this message, or would like me to focus on a specific part for deeper exploration, please let me know? Thank you for your availability.
