

Lasting Results Part 7

Effective Ministry

Human Touch vs. Electronic Devices

Encryption

Core Message

- **Effective Ministry and Lasting Results** come **through a balance** between the **human touch** and **electronic devices**.
 - The message emphasizes a **renewed faith in the power of personal, physical interaction** as modeled by Jesus and the early Church.
-

Biblical Emphasis on Human Touch

- Scriptures (e.g., Matthew 8, Luke 13, Acts 8) are used to reinforce that **healing, impartation, and connection** occurred **in person** through the **laying on of hands**.
 - The **physical presence** of Jesus and His disciples is highlighted as essential to ministry effectiveness.
-

Caution Regarding Technology

- Modern devices, though useful, can:
 - Be **distracting**
 - Erode **privacy**
 - Replace **true fellowship** (both with God and others)
- The message doesn't call for abandonment of technology but warns against **overdependence**, promoting **balance** instead.

Encryption as a Spiritual Analogy

- The teaching parallels **digital encryption** with the **spiritual function of speaking in tongues**:
 - **Speaking in tongues = Encrypted communication**
 - **The Holy Spirit = Encryption source & decryption key**
 - **Satan = Unable to decode**
- 1 Corinthians 14:2 and Acts 2:4 validate that tongues contain **hidden, private communication with God**.

Spiritual Application

- **Speaking in tongues** is portrayed as:
 - **A weapon of spiritual warfare**
 - **A source of personal edification**
 - A means to **prepare, evangelize, minister, and develop character**
- This teaching urges believers to embrace the **baptism of the Holy Spirit and tongues** as **non-negotiable tools** in today's world.

More summary:

Teaching Outline: Part 7 - Lasting Results: The Human Touch vs. Electronic Devices

Theme: Achieving effective ministry and lasting spiritual results through a balanced approach to the human touch and technology.

I. Introduction

- **Summary:** From last week's part of the series.
- **Central theme:** Effective ministry and lasting results come through **the human touch**, even in a tech-saturated world.
- **Emphasis:** Balance is the key.

II. The Importance of the Human Touch in Scripture

Romans 10:17

- Faith comes by hearing the message of Christ.

Examples from the Gospels and Acts:

1. **Matthew 8:1-3** — Jesus touches and heals the leper.
2. **Matthew 19:13-15** — Jesus lays hands on children.
3. **Mark 6:1-2** — Mighty works performed by Jesus' hands.
4. **Luke 4:40** — Jesus lays hands on each sick person.
5. **Mark 16:18** — Believers will lay hands on the sick.
6. **Luke 13:10-13** — Jesus heals a woman by laying hands.
7. **Acts 8:14-17** — Apostles lay hands to impart the Holy Spirit.
8. **Acts 19:11** — God works miracles through Paul's hands.

Summary:

- The Ministry in the New Testament was **in-person and physical**.
- We are now **God's human touch to others**.

III. Technology: A Modern Challenge

- **Observation:** Most people are occupied with devices.
- **Difficulties:**
 - Hard to lay hands on someone over social media.
 - Electronic devices distract from real fellowship.
 - They can disrupt connection with God.

Key Point:

- Technology is not evil, but it must be kept in **perspective**.
 - **Remember:** Balance.
-

IV. Encryption: A Spiritual Parallel to Speaking in Tongues

Privacy Concerns in Tech World:

- Surveillance and data tracking (e.g., RFID chips, cameras, Google Earth).
- Keep in mind even though technology... is watching us, God is watching everything, everyone always, and He does not sleep.

Spiritual Solution: Speaking in Tongues

- **1 Corinthians 14:2** — Tongues are private, encrypted messages to God.
- **Acts 2:4** — Holy Spirit empowers encrypted utterances.
- **1 Corinthians 14:4, Jude 20** — Tongues edify and build up the believer.

Encryption Analogy:

- Tongues = Encrypted spiritual data.
- Holy Spirit = Encryption source and decryption key.
- Enemy cannot decode tongues (spiritual security).
- Interpretation of tongues = Decryption by the Holy Spirit.

V. Benefits of Speaking in Tongues

- **Preparation & Training (A-E)**
- **Evangelism (F-G-H)**
- **Effective Ministry (I)**
- **Character Development (J)**
- **Fruit that remains (John 15:16)**
- **Wisdom and righteousness (1 Cor. 1:30-31)**

VI. Conclusion

- **Speaking in tongues** is a tool for privacy, power, and edification.
- **Balance is vital:** Embrace the human touch while managing technology wisely.
